Principal: Mrs H Young

9th October 2026

Dear Parents/Carers,

At Middlestown, we wish to open our children's eyes to the wealth of future job possibilities that they can aspire to. Through doing this, we wish to challenge stereotypes and ensure they are aware of a variety of different career routes available to them including technical routes as well as academic.

We believe it is important to nurture their career aspirations and inspire our children about the world of work. To do this, we really need your help!

We would appreciate it if you would be able to come into school and talk about your job role with the children. This could involve talking with children in classrooms and sharing videos/photos or equipment from your role. Any job role will be of interest; we really want to open the children's eyes to different career pathways.

We want to take this opportunity to thank the parents that have already given up their time to come into school and talk to our children about their careers. The children thoroughly enjoyed the workshops! Careers the children have already experienced include traffic police officer, paramedic, ground engineering, physiotherapist, wastewater scientist, marketing, railway engineering, product delivery, armed forces and solicitor.

Please fill in the online form to state any days/times that would suit you to come into school. I will be in touch over the course of the academic year to ensure we have a range of different vocations represented.

If you know someone in your extended family or friendship group who would be happy to come and talk to the children, then please ask them to fill out the link also.

MPA- Careers Workshop Form – Fill in form

Yours Sincerely,

Mr Jack Andrews

Assistant Principal
